Digital Security Point of Contacts

Q1. Who should I contact if I have a Digital Security question/clarification?

A1. If you have a Digital Security on any policy or procedure, you can reach out to the designated Information Security Lead (ISL) Contact for your Business Entity/Business Unit/Team. You can reach out to the Information Security Principal's (ISP's) in the list above for any escalations.

Q2. How do I contact my Information Security Lead (ISL)?

A2. The easiest way to contact your ISL is to make a request via this page https://bp365.sharepoint.com/sites/Technology-intranet-DS/SitePages/Information-security-leads---contacts.aspx. Alternatively, you can reach out to any of the ISL's supporting the business entity/business unit or Team and they will route you to the correct contact based on your request.
